FOR SCREEN PRINTERS

INFO SHEET

Product

GO MaxRIP For Screen Printers

USP (Unique Selling Proposition)

GO MaxRIP™ is an easy-to-use software RIP designed for screenprinters who need to produce film positives on EPSON desktop printers. GO's MaxRIP provides all the features needed to turn your EPSON desktop printer into a low cost imagesetter.

Key Features

- Transform your EPSON Desktop Inkjet Printer into a Low-Cost Imagesetter
- Easy to Use with User Friendly Controls
- Advanced Halftone Printing for High Speed Processing of Files for Imaging Screen Print Film Positives
- Advanced Built-In Density Curves and Density Calibration
- Preview Composite Proofs from Pre-separated PostScript Files
- Print Separations from Composite PostScript or PDF files and from CMYK or RGB Files
- Adjustable Density Curves, Angles and Frequencies
- Hot Folder Based Workflow Allows Users to Setup as Many Printers as Needed
- Works and Prints Directly from Adobe Photoshop, Illustrator, InDesign, Corel Draw, Freehand and Quark Xpress
- Windows and Mac Ready

Overview

GO's MaxRIP is an advanced easy to use RIP software specifically designed for transforming your EPSON desktop inkjet printer into a low-cost imagesetter for printing high quality screen positive films. GO's MaxRIP features advanced halftone screening, density calibration, built-in density curves which can be calibrated to provide dark, and dense prints without using excess inks. In addition, GO's MaxRIP supports the use of ICC and ICMs for color management profiles and works directly with most graphics artwork programs.

GO's MaxRIP is ideal for printing high quality film positives for screens. When used with GO's dMax 4 film and ink, there is not a more cost effective solution in the market for screen printers.

Packaging

GO MaxRIP Screen Print Software

Add-on Products
