Graphics One Launches GO Salsa TX Printer

***64-inch Direct-to-Fabric and Dye Sub Transfer
Combo Printer--Our Printer Goes Both Ways!***

Burbank, California-June, 2009-Graphics One, LLC (GO), an international distributor dedicated to providing innovative, high quality products to digital imaging professionals is launching the GO Salsa TX, 64-inch direct-to-fabric and dye sub transfer combo printer during the 2009 NBM Show, in Long Beach, CA.

Following on the successful launch of the GO RIO TX 42-inch direct-to-fabric printer, GO's Salsa TX direct-to-fabric and dye sub transfer combo printer offers a wider range of opportunities for it unites the best of both dye sub and fabric worlds all packed into one printer. With its maximum media and printing width of 64-inches, the Salsa TX incorporates the patented I2: Intelligent interweaving print technology which virtually eliminates print banding, it also features a maximum resolutions of up to 1440 dpi and an ultra high printing speeds of up to 185 ft²/hr. GO's Salsa TX has been modified to image on both direct-to-fabric or dye sub transfer applications with the integrated and synchronized on-line heat fixation unit for dual direct or paper transfer printing, a high performance ink delivery system, fabric drying system and fabric media handling system.

According to Dan Barefoot, GO President, "This is the most versatile printer that Graphics One has introduced in the dye sub industry as a whole. GO's Salsa TX combo printer can be used for both Direct-to-Fabric and Dye Sub Transfer applications, this means that customers get the best of both worlds! Plus, with GO's complete list of world class dye sub accessories which complements the Salsa TX, customers get the ultimate competitive dye sub and direct-to-fabric printer at a great value price point."

GO's Salsa TX direct-to-fabric and transfer paper combo printer is ready to print directly onto textiles for applications such as flags, banners, soft signage, wall murals, trade-show exhibits, outdoor advertising and more. In addition, GO's Salsa TX can print onto dye sub paper for transfers onto all possible dye sublimatable materials such as tile murals, polyester coated ceramics, banners, flags, carpets, sports goods (snowboards, helmets), gadgets (mugs, mouse pads, clocks), apparel (blouses, rain jackets, t-shirts, sportswear), personalized interior (curtains, sheets), POP-displays, posters and much more.

GO's Salsa TX combo printer is priced at \$44,995 and is available for shipment beginning in July, 2009.
