

Compress iUV-1200S UV Flatbed

Wider, Deeper and Faster Industrial Mid-Range UV Flatbed Printer

USP (Unique Selling Proposition)

Larger and faster UV printer for efficient high volume printing.

Key Features

- Wider: 47" x 24" Overall Flatbed Area with a Printing Width of 43"
- Deeper Material Height: Up to 12-inches
- Faster Print Speeds: Up to 300 SqFt/Hour
- Robust Print Engine: 6-Color Channel Advanced Epson Printheads (CMYK + White and Clear)
- High Resolution Imaging Up to 1440 Dpi
- Third Generation Dual UV LED Lamp Arrays with Liquid Cooled System Technology for Enhanced Longevity
- Bulk Ink System in Bottles with WIMS® (White Ink Management System) for Ink Circulation and Filtration
- Inbuilt Media Height Detection with LPP Technology (Laser Printhead Protection) for Reducing Printhead Strikes
- Reduced Print Banding for Outstanding Image Quality with IWDT (InterWave Dot Technology)
- New IME Technology (Ink Mist Extraction) Virtually Eliminates Ink Mist for Remarkable Image Quality
- Uses GO UV-m Ink: Multi-Purpose CPSIA Compliant Digital UV Ink with Wide Color Gamut and Great Color Density
- Optional Software with Braille and Textured Printing Capability

Overview

The Compress iUV-1200S features an overall 47" x 24" flatbed area and a wide 43" maximum printing width. The Compress iUV-1200S UV flatbed printer boasts an advanced print engine offering six independent color channels for CMYK, White and Clear UV inks with high resolution imaging up to 1440 dpi, providing users with superb color imaging output. Offering a deeper material height thickness that can accommodate and print onto substrates up to 12" thick and print speeds of up to 300 sqft per hour, the Compress iUV-1200S is truly a remarkable solution for industrial decoration markets. In addition, the Compress iUV-1200S flatbed is packed with 14 great features including dual liquid cooled UV LED lamps and a white ink re-circulation system at a cost effective price point.

Ideal Applications

The Compress iUV-1200S UV flatbed printer can print to virtually any substrate and was developed for use in promotional and industrial market segments. This includes acrylics, plastic, ceramics, wood and other substrates not mentioned. There are almost unlimited applications.

Add-on Products

- GO UV-m Ink
- GO SuperPrime UV Primer
- Optional Rotary Tool for Bottles
- Optional Software for Braille and Textured Printing
- GO StickyMat
- Wasatch SoftRIP

Packaging

One Compress iUV-1200S UV LED flatbed printer, set of GO UV-m CMYK ink bottles (500ml) and Wasatch SoftRIP.
