

GO F-24 UV LED Flatbed Inkjet Printer

24" x 18" CMYKW High Speed UV Print Engine

USP (Unique Selling Proposition)

The F-24 UV LED Flatbed printer delivers the highest speed 24" UV printer for production printing.

Key Features

- Up to 1440 dpi
- Print speeds of over 100 sqft/hour CMYK
- 24" x 18" print area
- 10" opening for material thickness
- 8-color channel piezo drop-on-demand printheads
- **White Ink Ready (WIR)** provides ink circulation and pressurized pumps to reduce head clogging and maintenance downtime making sure your white ink is ready when you are.
- **InterWave Dot Technology (IWDT)** developed for UV imaging significantly reduces banding in your prints.
- **Laser Printhead Protection (LPP)** drastically reduces printhead strikes by using light sensors to detect any print path obstructions and while maintaining your prints
- UV-m Ink for F-24: C, M, Y, K, White and Clear UV inks (available in 250, 500ml or 1 liter bottles)
- Includes GO's F-24 RIP, one set of CMYK ink bottles (550ml)
- Custom and standard jigs are optional

Overview

The F-24 UV offers high speed imaging of over 100 square feet per hour in a wide format 24" setting. The F-24 is the first true UV printer to feature Interwave Dot Technology (IWDT) with the capability to print up to 8-colors at 1440 dpi. One pass printing of all colors, including white, makes this a valued addition for anyone who needs to image high quality on demand prints to virtually any substrate.

Ideal Applications

GO's F-24 UV Flatbed Inkjet Printer can print to virtually any substrate and was developed for use in promotional and industrial market segments. This includes acrylics, plastic, ceramics, wood and other substrates not mentioned. There are almost unlimited applications.

Add-on Products
