

- 51" and 66" inches Professional Oil-Drum type Roll-to-Roll Heat Press units
- Fast and easy operation
- High-quality output imaging
- Offline printer configuration
- Ultra highspeed image transfer system (9.8 feet per minute)
- Silent noise operation
- Heat transfer image and design to stretchable fabrics
- Oil drum series produces precise temperature profile
- Includes Air compressor unit
- Includes a full working table with automatic take-up system

Opportunity

Are you ready to take the next step in the dye sublimation market? Graphics One offers all the innovative solutions to get you started in the dye sub business. GO's RIO Sublimator Pro-O is a professional Oil-Drum type Roll-to-Roll heat press sublimation system that is the perfect add-on to GO RIO PRO Dye Sub Printer or any digital dye sublimation transfer printing solution requiring the capability to sublimate dye sub inks from transfer paper to a fabric. The addition of the RIO Sublimator Pro-O to the RIO PRO dye sub printer means a user has a complete dye sublimation solution to get started on a potential business or creative opportunities in the dye sublimation market.

RIO Pro-O Sublimator

RIO Pro-O Sublimator Oil-Drum type Roll-to-Roll dye sublimation heat press system is a simple and user friendly digital heat transfer system that features a maximum imaging size of 51-inches or 66-inches and a maximum paper size of 51-inches or 66-inches and the ability to transfer images at high speed of up to 9.8 feet per minute. With inbuilt tension controls and an automatic thermostat controls, the maximum fixing temperature is usually 230 C, but can be set for lower or higher temperatures depending upon the specific fabric requirements. GO RIO Pro-O Sublimators take images printed on dye sub transfer paper and transfers printed images onto fabric surfaces through sublimation process with proper heat and pressure.

In addition, the RIO Sublimator Pro-O also features silent-low noise operation to maximize comfortabilty and is equipped with a full working table and a automatic take-up system that precisely feeds and guides paper and fabric roll.

RIO Pro-O Sublimator

SPEC SHEET

Compatible Printers

GO RIO Pro-O Sublimators works great with GO's RIO PRO dye sublimation printer and also with any piezo aqueous printers using EPSON printheads including printers from EPSON, Mimaki, Mutoh and Roland. There are a number of textile specific printers from Mimaki, Mutoh and Roland which work well with this unit. Although, EPSON printers were not specifically developed for fabric printing, they are commonly used in this application and work well with the RIO Sublimator Pro-O.

Product Name	51" GO RIO Pro-O Sublimator	66" GO RIO Pro-O Sublimator
Maximum Printing Width	51 inches (1300 mm)	66 inches (1700 mm)
Speed	MAX 3.0 M/MIN	MAX 3.0 M/MIN
Heat Temperature	MAX 230C	MAX 230C
Drum Diameter	13.7 inches (350 mm)	13.7 inches (350 mm)
Drum Length	51 inches (1300 mm)	66 inches (1700 mm)
Operation Width	51 inches (1300 mm)	66 inches (1700 mm)
Electric Power	AC 220/240V 3P 6KW 16A	AC 220/240V 3P 10KW 27A
Dimension	1980(L) X 550(W) X 1560(H)	2380(L) X 550(W) X 1560(H)
Weight	800 Kg	950 Kg
