

- 43-Inches ( 1.09 meters ) Maximum imaging size
- Fast and easy operation
- High-quality output imaging
- Offline printer configuration
- Ultra highspeed image transfer system ( 7.8 feet per minute )
- High-quality output imaging
- Silent noise operation
- Heat transfer image and design to stretchable fabrics

### Opportunity

Are you ready to take the next step in the dye sublimation market? Graphics One offers all the innovative solutions to get you started in the dye sub business. GO's RIO Sublimator is a Roll-to-Roll heat press sublimation system that is the perfect add-on to GO RIO PRO Dye Sub Printer or any digital dye sublimation transfer printing solution requiring the capability to sublimate dye sub inks from transfer paper to a fabric. The addition of the RIO Sublimator to the RIO PRO dye sub printer means a user has a complete dye sublimation solution to get started on a potential business or creative opportunities in the dye sublimation market.

### RIO Sublimator

RIO Sublimator Roll-to-Roll dye sublimation heat press system is a simple and user friendly digital heat transfer system that features a maximum imaging size of 43 inches and a maximum paper size of 44 inches and the ability to transfer images at high speed of up to 7.8 feet per minute. With inbuilt tension controls and an automatic thermostat controls, the maximum fixing temperature is usually 240 C, but can be set for lower or higher temperatures depending upon the specific fabric requirements. GO RIO Sublimator take images printed on dye sub transfer paper and transfers printed images onto fabric surfaces through sublimation process with proper heat and pressure. In addition, the RIO Sublimator also features silent-low noise operation to maximize comfortability and is equipped with a working table with single roll holder.

### Compatible Printers

GO RIO Sublimator works great with GO's RIO dye sublimation printer and also with any piezo aqueous printers using EPSON printheads including printers from EPSON, Mimaki, Mutoh and Roland. There are a number of textile specific printers from Mimaki, Mutoh and Roland which work well with this unit. Although, EPSON printers were not specifically developed for fabric printing, they are commonly used in this application and work well with the RIO Sublimator..

# RIO Sublimator

# SPEC SHEET

<b>Product Name</b>	GO RIO Sublimator
<b>Maximum Printing Width</b>	43 inches ( Roll Fabrics to 42 - inches )
<b>Speed</b>	MAX 2.4 M/MIN
<b>Heat Temperature</b>	MAX 240 C
<b>Drum Diameter</b>	14 Inches ( 350 mm )
<b>Drum Length</b>	51 Inches ( 1300 mm )
<b>Operation Width</b>	43 Inches ( 1100 mm )
<b>Electric Power</b>	AC 220/240V - 6KW 27A
<b>Dimension</b>	1920(L) X 550(W) X 1315(H)
<b>Weight</b>	772 lbs
