Applications

GO TearDrop is a lightweight, portable display that can be used with practically any fabric and banner graphic materials. GO's TearDrop is a display unit with a sophisticated style and look and have a flexible telescopic aluminum pole which makes it versatile for either indoor or outdoor. With two available sizes of 71" inches and 99" inches, the display dimensions can be changed according to your needs. In addition, the 99" inch Teardrop features a special ground penetrating metallic spike for supreme outdoor durability against high winds and extreme weather conditions. GO's TearDrop allows you to display impressive, attention-grabbing images with its uniquely designed teardrop shape, perfect for drawing attention and makes for a great marketing tool. Ideal for storefronts, exhibits, traveling expeditions, special events, or any sort of presentation.
