- Indoor / Outdoor Printing at Up to 1440 dpi
- Industrial Media Handling System up to 250 Pounds
- Solvent Ink with Up to Three Year Outdoor Capability
- Powered by Wasatch SoftRIP Light
- Speeds Up to 400 Square Feet per Hour
- Twelve Month Warranty

Imagine having a high-speed, high-quality industrial large format printer with the lowest cost of ownership in the industrial class. You have just imagined the GO Toucan LT from Graphics One, which offers all these features and more. Based on the very successful Toucan Solvent Platform, GO Toucan LT offers the best of all worlds: Outstanding print quality for indoor and outdoor applications from an industrial-strength printer with the lowest cost per image of any leading printer in the industry.

Using the Toucan platform as the basis for the GO Toucan LT, users have the advantage of having industrial solvent pumps, industrial solvent tubing, new and larger dampers and all of the other internal solvent systems found in the normal Toucan. GO Toucan LT is the perfect platform for the six high resolution heads (twelve cartridges) and takes advantage of the patent pending mirrored bi-directional imaging capability of the unit for higher speed with less banding.

Printing at resolutions up to 1440 dpi, GO Toucan LT can be used for both indoor and outdoor applications. GO GEO solvent ink complements the competitiveness of the system by offering the ability to print on most uncoated media at speeds of up to 400 square feet per hour. GO GEO inks are proven and offer up to three year outdoor durability without lamination. With the capability to accept rolls of media up to 250 pounds, the industrial media handling system is unparalleled in this class of printers.

Powered by the industry's most powerful production workflow software, Wasatch SoftRIP Light, you will be printing in seconds. Almost anyone can begin printing accurate color with GO Toucan LT with a minimum of training. Big, bright, bold colors are available at a touch of the button. Just imagine the opportunities that you will have when you combine the industrial capabilities of Wasatch with the GO Toucan LT. It is the most powerful and cost effective solution in its class.

GO Toucan LT comes standard with a twelve month warranty.
