Applications

The GO dMax Bundle Plus and Plus SP were developed specifically for GO's dMax printer users who wish to obtain additional value in the screen print color separation and poster markets. GO's dMax Plus and Plus SP bundles work perfectly with the dMax Printer, the 42-inch color separation and poster printer. GO's dMax Plus consists of a Wasatch SoftRIP and the dMax Plus SP bundle includes Wasatch SoftRIP SP, specifically for screen printers. The dMax Plus package and the dMax Plus SP package is exactly the same except the SP package includes the SP option for screenprints. Included in the package is a set of four 220 ml PhotoProof Ink cassettes, rolls of 24-inch and 17-inch dMax 4 film. In addition to this great value is one roll of BannerUp media and one ezBanner display, a perfect lightweight marketing tool for visual merchandising, point-of-purchase, traveling expeditions, special events or any sort of presentation.
