- Aggressive Adhesion
- Specifically Formulated for High Speed Digital Printing Applications
- Wide Range Media Compatibility

Opportunities

With years of dedicated research, development and testing, Graphics One introduces the advanced new generation EcoOne XG² eco-solvent ink specifically designed for the high speed wide format printers for indoor/outdoor printing applications. With a new advanced formulation, GO's EcoOne XG² ink offers vast feature improvements including a new "Pour Over" technology which means you can easily change your original ink directly with no compatibility problems. GO's EcoOne XG² inks features a wide color gamut with twice the performance of the original XG. GO's EcoOne XG² ink is the wisest eco-solvent choice for all your outdoor printing needs.

GO EcoOne XG² Ink

GO EcoOne XG² ink offers a new "pour over" ink technology which means our ink can easily be poured over the original OEM ink with no ink compatibility problems. GO's EcoOne XG² offers outstanding color matching producing brilliant, saturated and beautifully eye-pleasing colors. EcoOne XG² has superior dot gain control for enhanced image quality that is designed for high-speed digital printing. GO's EcoOne XG² is manufactured in Japan by the world's largest and trusted ink and chemical manufacturer, it is tested and proven to be highly compatible with GO, Mutoh, Roland and Mimaki

Graphics One assumes the warranty responsibility for those printers which are participating in our GO Flexi Ink plan, and which have not used any inks other than GO EcoOne XG2. This warranty coverage includes parts only on the ink delivery system for a period of one year from the date of shipment. This warranty coverage does not include consumable parts not covered under the original Mutoh warranty. Additionally, the remainder of the printer's warranty is under the responsibility of Mutoh and is administered on behalf of Mutoh by Graphics One.
