**Printer Stand Optional*

OVERVIEW

Graphics One is adding to its new lineup of dye sublimation turnkey systems with the launch of the new 24-inch GO T3170x DS (Dye Sub) System. This turnkey system includes printer, ink, paper, software, training and support. Featuring advanced new printer technology, the system includes the latest print head technology, outstanding imaging quality, fast print speeds and Wi-Fi connectivity for using native smart tablet and smart phone applications for dye sub imaging. Additionally, the printer is capable of imaging both dye sub to cotton and dye sub to polyester out of the box on both roll/cutsheet media.

GO T3170X DS Dye Sublimation Printer

The 24-inch T3170x is the core of our product offering. Using the latest four-color Micro TFP printhead technology, this technical printer offers high speed, excellent imaging quality both roll/cutsheet compatibility and an ink system that is easy to replenish.

IDEAL APPLICATIONS

Great for all dye sub transfer applications such as polyester transfers onto apparel, athletic jerseys, socks, mugs, caps, tags, poly coated metals, mousepads, smartphone cases, mats, coasters, keychains, carpets and more.
