OVERVIEW

GO T3170x SP is a high performance, full-solution 24-inch professional inkjet system for color separation. With a maximum printing and media width of up to 24-inches and a maximum resolution of 2400 x 1200 dpi, GO T3170x SP is perfect for producing incredibly sharp text and line art. In addition, the GO T3170x SP is unique in that it is the first large format printer to incorporate the cartridge-free printing.

This 24-inch printer utilizes the latest MicroTFP printheads. As most are aware, Graphics One was one of the first companies in the world to offer inks that were developed specifically for EPSON® MicroTFP print heads. With the launch of GO T3170x SP system, Graphics One is again leading the market with a 24-inch film positive solution for screen printers.

IDEAL APPLICATIONS

The most common applications for commercial screen-printing are silk screen t-shirts, posters, stickers, signs, banners, ring binders, mouse pads, promotional items and exhibition displays.
