- 5 Level Coating Technology
- Developed Specifically for Screen Print Market
- Ideally Suited for Most Screen Print Applications Including Composite Color
- Images Halftone Screens and Line Art with Clarity
- No Darkroom, No Processor, No Chemicals Needed
- Works with GO's ScreenMate Color Separation Ink
- Available in Sheets and Rolls

OVERVIEW

The GO ScreenMate Color Separation Film line opens up new opportunities and lowers costs for screen printers unimagined a few years ago. By using a high quality piezo inkjet printer, CADLink FilmMaker and GO's ScreenMate color separation ink, a screen printer virtually has a replacement for a high priced imagesetter. In addition, the ScreenMate film offers quick drying capability with a thickness of 5 mils and coating technology that controls dot gain, UV characteristics, and drying.

IDEAL APPLICATIONS

GO ScreenMate Film can be used with silk-screen process printing, to produce a great variety of separations. The most common applications for commercial screen-printing are posters, stickers, signs, banners, t-shirts, promotional items, exhibition displays and more.
