OVERVIEW

The new tabloid-sized dye sublimation system from Graphics One was developed with one key idea: make sublimation easy. With the launch of the GO ET-15000 DS dye sub system, we are pleased to introduce the capability to use either a smartphone or tablet for imaging dye-sub prints. Along with this capability, we include online support, live training sessions and one-on-one support when needed. Our goal is to make this system easy to use.

IDEAL APPLICATIONS

Application possibilities include production of polyester-based items for dye sublimation transfers such as small format apparel transfers, mousepads, mugs, cups, lanyards, caps, hats, tags, coasters, socks, plates, masks, head bands, key chains and more.

ADD-ON PRODUCTS

- GO Xpress 1620AR Heat Press
